Banners and banner formats

Optimal visibility on **all** devices

Adjust your campaigns and increase visibility on both mobile and desktop devices.

Banners allow your company to become visible and promote its brand to our 500,000 monthly readers. You can choose between several different formats:

- Interstitial
- wallpaper
- keywords

Banners use the formats in an optimal way and there are plenty of current examples on the various media platforms:

[Computerworld](#), including the [Eksperthen](#) (The Expert) section

Hvordan sikrer danske teknologivirksomheder deres konkurrencedygtighed i længden?

Klumme: Så længe der er mangel på højt kvalificerede it-ressourcer i Danmark, vil der være udfordringer med at få adgang til kvalificerede ressourcer. Det betyder, at der vil være behov for outsourcing eller som nogen vil sige: Udflagning af jobs.

Manglende prototyping i app-udviklingen kan koste dyre lærepenge
Læs indlæg

Den forretningsorienterede CISO kan både spare forretningen penge og sikre virksomheden bedre
Læs indlæg

It-sikkerhed begynder i produktudviklingen: AI udvikling bør helt naturligt også omfatte it-sikkerhedsspecialister,

Mest læste klummer og blogs

Manglende prototyping i app-udviklingen kan koste dyre lærepenge
Klumme: Min erfaring er entydig: Jo bedre prototypen er, desto bedre rammer man forretningsbehovene og udvikler en app, der er brugervenlig og holder sig inden for budget. Af: Carsten Vraa-Jensen

Den forretningsorienterede CISO kan både spare forretningen penge og sikre virksomheden bedre
Klumme: Rigtigt mange virksomheder investerer dyrt i cybersikkerhed, men de lykkes alligevel ikke med at sikre virksomhedens vigtigste informationer godt nok. Af: Jesper Lund Hedegaard

Det er kun et spørgsmål om tid, før passwordet vil være helt forsvundet
Klumme: Der går en rum tid, inden passwords er fuldstændig uddøde. Men eftersom teknologien konstant

Peter Kruse
Head of eCrime Unit, CSIS

datterselskaber, og topfolk fra holdingselskabet sættes ind som chefer i to af tre datterselskaber.

Selv skriver selskabet om ledelsesrokkaden:

"I de seneste år har GateHouse Group oplevet en stigende interesse for dataindsigtstjenester og satellitkommunikationssoftwareløsninger i markedet. For at understøtte den positive udvikling foretager GateHouse Group nu omstruktureringer i ledelsen for yderligere at styrke det kommercielle potentiale i datterselskaberne GateHouse Maritime, GateHouse Satcom og CleanQuote."

Computerworld Connect

Extremely targeted marketing

Computerworld brings into play our large permission database and offers a unique opportunity to send exclusive and targeted messages to a highly unique group of IT professionals.

Prices

- 1,000 permissions: DKK 15,000
- 3,000 permissions: DKK 25,000
- Each additional permission: DKK 4

Minimum amount is 1,000 permissions.

Materials

Content in service mails can either be delivered as HTML or as graphics + text.

HTML set up is an additional fee of DKK 2,500.

If you are submitting a completed HTML file and more than 2 proofs are needed, there is also an additional fee of DKK 2,500.

Service mails can be used to invite people to your own events or product launch, to spread news or for branding purposes, etc. –

basically for any purpose where you need to reach a specific target group.

You decide the content, we provide the target group.

Salesforce Live: Danmark

Er du klar til fremtidens arbejde?

27. april, 2021 | Kl. 10.00

[TILMELD DIG](#) [LÆS MERE](#)

Hej [NAME],

Sæt et stort X i kalenderen den 27. april, når vi afholder et af Danmarks største virtuelle tech-events **Salesforce Live: Danmark** - fyldt med med inspirerende talere, tankevækkende paneldebatter og engagerende kundehistorier.

Sammen med virksomheder som Solar, Topdanmark, Baln & Co. og Chr Hansen viser vi dig, hvordan din virksomhed kan tilpasse sig den nye normal, øge væksten ved at skabe fremtidens arbejdsplads og samtidig være platform for bæredygtig forandring. Lær best practices inden for din industri, bliv inspireret af succeshistorier fra andre virksomheder og hør fra eksperter, hvordan du kan gribe udfordringen an.

Highlights

Inspirerende kundepaneller
Værtinde Michele Bellalche vil fore an på tankevækkende paneldebatter sammen med vores Trailblazers

Tankevækkende interviews
Få et eksklusivt indblik i racerfører Kevin Magnussens brug af data, og drag paralleller til din egen virksomhedsstrategi

Breakout-sessioner
Dyk ned i de seneste trends og tendenser indenfor din branche sammen med eksperter og kunder i vores breakout-sessioner

Agenda

10:00	Salesforce Live: Aftningssession
11:15	Industri-specifikke breakout-sessioner
12:45	Rolle-specifikke breakout-sessioner

[SE HELE AGENDA'EN](#)

Vi håber at se dig til Salesforce Live: Danmark i april!

BREAKFAST SESSION

Gratis LIVE morgenmøde

Brugervenlig digitalisering

Den 15. april kl. 9-11 Inviterer Syspeople dig og dine kollegaer til gratis Breakfast Session.

Kom med til en spændende morgen, når **Anne Marie Kanstrup**, Professor ved Aalborg Universitet og **Morten Steenbach**, CPO hos Syspeople, stiller skarpt på brugervenlig digitalisering og drøfter:

- Hvad er vigtigt, når vi designer og udvikler nye digitale løsninger?
- Hvordan inddrager vi forskellige brugergrupper?
- Hvordan bygger vi bro mellem brugere, forretningen og teknikere?
- Hvordan skaber vi sammenhæng i vores løsninger?
- Hvad kan vi lære fra konkrete cases?

og meget mere ...

Det er selvfølgelig gratis at deltage!

Læs mere om vores event og tilmeld dig nedentor.

Vi glæder os til at se dig!

[Tilmeld dig her](#)

Anne Marie Kanstrup, Professor ved Aalborg Universitet

Denne Breakfast Session afholdes af

Computerworld Whitepaper

Produce a whitepaper and get the best sales leads

IT professionals often use white papers to learn about current technologies and solutions before deciding to invest.

The concept works like this:

- The company books a certain number of leads. The price depends on who the company accepts as a lead
- The white paper is uploaded to Computerworld.dk/whitepaper
- The white paper is marketed in Computerworld's media universe
- Leads will be forwarded on an ongoing basis.
- Data on each lead includes name, title, name of company, address, email, phone number, number of employees, data and time of download.

Price is DKK 5,000 for start-up + DKK 1,000 per basis lead (minimum of 20 leads).

Computerworld is happy to accept a list of companies that you want leads from - and, if relevant, a list of companies that you are not interested in.

The screenshot shows the Computerworld Whitepaper website. At the top is a navigation bar with the Computerworld logo and links for CID, PREMIUM, JOB & KARRIERE, EKSPERTEN, IT-KURSER, EVENTS, and social media icons. Below this is a 'Whitepaper' section with a search bar and a list of categories: STRATEGI, PLANER & LEDELSE, FORRETNINGS SOFTWARE, SERVER & STORAGE, SIKKERHED, TELE & MOBIL, LOG UD, and SØG. The main content area is titled 'Computerworld Whitepaper' and includes a search bar with a 'Søg' button. Below the search bar is a grid of 9 categories, each with a download icon and a brief description. The categories are: FORRETNINGS SOFTWARE (302), BUSINESS INTELLIGENCE OG ANALYSE (99), HARDWARE (132), SIKKERHED (202), SOFTWARE (117), TELE OG MOBIL (154), STRATEGI, PLANER OG LEDELSE (545), SERVER OG STORAGE (251), and NETVÆRK (148). Below the grid is a section titled 'SENESTE WHITEPAPERS' featuring four featured whitepapers: 'Sådan automatiserer du Service Management i den digitale tidsalder', 'Sådan tager du kontrollen over dine Office 365 data', 'Netværk uden vokseværk', and 'Hvad er prisen for gammeldags netværk?'. Each featured whitepaper includes a thumbnail image, a title, and a brief description.

SENESTE WHITEPAPERS

Sådan automatiserer du Service Management i den digitale tidsalder
EMA research afslører en voksende rolle for service management eller it-management teams. Både i forhold til at forberede end-user oplevelsen og i forhold til at optimere it-performance generelt. Denne rolle for service management gør det, i stigende grad, til et strategisk innovationsben.

Sådan tager du kontrollen over dine Office 365 data
Moderne SaaS applikationer såsom Microsoft Office 365 giver flere fordele fremfor den traditionelle softwaremodel, som mange forretningskunder benytter sig af. Den agede fleksibilitet i den cloud-baserede licensering og tilgængeligheden af shared cloud storage, skaber

Netværk uden vokseværk
Tilpasning af traditionelle netværk til stadigt nye krav, udvidelser og forandringer er dyrt, besværligt og usikkert. En enkelt forkert lavet indstilling kan føre til sdfoarmed. En måde til at forenkle installationen og administrationen er at gå over til virtual cloud networks, skriver VMware. AI netværkstræfik går gennem et cloud-baseret

Hvad er prisen for gammeldags netværk?
Netværk får mere og mere at lave. Derfor ages besværet og risiciene med traditionelle netværkseenheder - ofte med forskellige proprietære regler og indstillinger. Alternativet er virtuelle netværk. I dem skal hardwaren bare udføre instruktioner fra et koordinerende program, der styres fra et centralt panel.

5 ting vi lærte da vi byggede en chatbot til kundesupport
Gennembrud med AI, machine learning og voice recognition, har gjort det muligt at lave virkelighedstro "menneske til maskine" interaktioner via chatbots. Hos firmaet Citrium har de for ganske nyligt startet rejsen med at bygge en chatbot, til et firma med over 15 millioner

Lav din egen robot på få minutter med Fable
Tilbage i 2011 startede Shape Robotics udviklingen af Fable, et robotsystem bygget enkelt op på moduler. Det gør at studerende kan bygge deres egen robot på få minutter ved brug af interaktive blokke eller Python API. I denne video fortæller Moises Pacheco, CTO i Shape Robotics om processen med at skabe

Spændende undersøgelse: Her ligger forretningsværdien i print-sikkerhed
En undersøgelse fra IDC viser, at der for virksomheder er en solid business case i at prioritere sikkerhed på print, og ethvert it-

Hvad gør du? Printsikkerhed er en trussel for din virksomhed!
Du tænker nok: Er printere virkelig så stort en sikkerhedstrussel? Få mange måder ja, for i en tid med konstante angreb, er en

Whitepap

Professional Computerworld journalism generates high-quality leads

White papers have a documented effect as generators of sales. Typically, you will get the best results if the white paper is structured and written in a journalistic style - and in Danish. Computerworld can offer a complete production of a high-quality white paper and guarantee that it will result in 25 sales leads.

The concept works like this:

- A 4-page white paper is written by a journalist associated with Computerworld, and Computerworld handles the layout.
- The subject and, if relevant, the script is defined by the sponsor.
- Your white paper is uploaded to Computerworld's white paper library and marketed on computerworld.dk, in newsletters and via email Direct Marketing.
- Computerworld **guarantees** 25 leads within an agreed upon time period.
- A lead consists of a professional (B2B) person, who has expressed a need for this product area and which Computerworld has the following data on: Name, title, name of company, address, email, phone number, sector and number of employees. There will also be a date and time for when the white paper was downloaded.

Market segments

Computerworld has approx. 29,000 people in the database, and the market segments are classified as follows:

Geography	
Zealand & The islands	approx. 14,200
Fyn & Jutland	approx. 5,300
Jobtitle categorised	
IT executives	approx. 2,765
IT staff	approx. 4,235

Computerworld Native

Reach out to Computerworld's readers in a brand new way via Native

Native is an effective format for contacting readers. The look and feel is the same as other editorial content, and the journalistic approach means that you meet your target group while their guard is down since this is not a traditional form of marketing.

The format is suitable for more complex topics such as subscription-based services, services, consultancy work and other areas where knowledge and industry expertise are important.

A Computerworld freelance journalist will write the article based on an interview with you, and we guarantee 500 reads of the article. The article will be featured in Computerworld's news bulletin with Native banners. The banner often gets up to 150,000 exposures.

Den rigtige teknologi med den forkerte kultur giver et skidt resultat

Teknologien er kun en del af arbejdet - Kultur og holdninger skal følge med, når applikationer skal moderniseres.

AF IBM | Udgivet 4. december 2020

Kulturen i en organisation er utrolig vigtig og meget vanskelig at håndtere i de forandringsprojekter, hvor teknologien er involveret. Den inkluderer alt fra holdninger i samfundet som helhed, industristandarder og ens egen virksomhedskultur til hvordan de enkelte medarbejdere i en virksomhed tænker.

Med en kultur der ikke matcher de teknologiske ændringer, er der en åbenlys risiko for, at den teknologiske ændring går galt, ofte uden varsel. Folk vil ganske enkelt ikke.

I udfordringer med forandring, det vil sige transformation, findes der et mellemliggende niveau mellem kultur og implementering af teknologi: ændring af forretningsmodeller. De tre niveauer er naturligvis forbundet, og koblingerne mellem dem gør kun forandringsprojekter endnu vanskeligere.

Det er noget, som Derek Barclay har arbejdet meget med. Han er ansvarlig for investeringer i modernisering af applikationer hos IBM i Norden. Fordi han har boet i Sverige siden år 2000, har han bemærket de særlige kendetegn, der generelt findes i de nordiske lande og i særdeleshed i Sverige. Det er en kompleks situation, som han beskriver:

- I Sverige er du nødt til at kommunikere ændringer tidligere ud end i for eksempel Storbritannien og USA. Og du skal have hele holdet med på forandringsrejsen, forklarer Derek Barclay.

[Maksimer værdien af dine digitale kanaler og minimer omkostningerne](#)

Der findes sågar forskelle i møderne, som der kommunikeres på:

- Når vi hiver eksperter ind fra andre lande for at holde foredrag, er vi omhyggelige med at forklare, at de skal have en mere ydmyg holdning, end de er vant til, siger Derek Barclay, som har forstået kulturens betydning.

Men i sidste ende handler det om at skabe nye forretningsmuligheder og øge virksomhedens ved hjælp af teknologiske ændringer. I dette tilfælde for at modernisere applikationer, ofte ved hjælp af cloud-teknologi. Hvor skal man starte?

En mulig taktik er at udvælge et afgrænset område og foretage en hurtig teknologisk ændring i, hvad der vil have en positiv indvirkning på medarbejderne i en virksomhed. Tanken er, at det herefter bliver lettere at gennemføre de nødvendige kulturelle ændringer sammen med medarbejderne.

Hvorfor sløppe cloudrejsen her bud?

Hybrid strategi og realistisk planlægning viser vejen videre, når infrastrukturen skal gemmes og forretningskritiske løsninger gøres tilgængelige.

Smukke visioner og hvordan de findes

I dag er data en stor del af arbejdet, de fleste virksomheder.

Det begynder at blive klart, hvor store datamængder der kræves til smart AI

AI-algoritmer kræver pålidelig dataindsamling, der er på plads, åbne og for store mængder af cloud-løsninger.

Podcast: Hvorfor cloud - og hvorfor ikke?

Følg med, når Computerworlds chefredaktør og IBM Danmarks adm. dir. taler med ledende CIOs om strategi og ansvarligheder på den digitale rejse.

Hvad fordelene ved decabernet og skyen - på samme tid

En pragmatisk hybrid multi-cloud strategi kombinerer fleksibilitet med fordelagtig automatisering, så man kan være på spring af nye muligheder.

Effektiv hybridstrategi er en bedre investering end ren cloud.

IBM har investeret milliarder i cloud-teknologi, men skyen kan ikke stå alene. Derfor vil IBM også arbejde med forklarer den nordiske CIO.

Computerworld Podcast

Podcast for IT professionals

Background

A podcast is for those of you who want to work together with Computerworld to create a podcast about companies' digital challenges, security challenges or other challenges that IT executives are interested in solving.

The podcasts will be hosted by Computerworld's Editor in Chief, Lars Jacobsen, and one of you.

Based on a talk with a guest, each podcast episode will focus on the guest's history, challenges and potential solutions for the guest's specific business sector.

The structure of the podcast:

Each podcast begins with an introduction of the guest, hosts and the subject matter. This is followed by a 20-30 second voiceover/intro. This will include a mention that the podcast is a collaboration between Computerworld and you.

The hosts will then discuss the podcast subject with the guest.

Podcast - continued

Each guest is chosen because they represent a topic that you as a partner want to highlight.

You can order 5 to 10 podcasts.

Computerworld will distribute each of the 10 episodes via RSS (Android), iTunes (iOS) and on Computerworld.dk in the form of an article that sums up the episode.

Computerworld will use either our Editor in Chief, Lars Jacobsen, or another editor to host the podcast and act as an editorial sparring partner.

You and Computerworld will work together to structure each episode, though it is expected that you will also use your network and customers to help us find the best people to interview. Computerworld will, however, retain editorial control.

Any travel expenses in connection with the recording of the podcasts will be paid for by you.

Podcast episodes are published on iTunes, RSS (for Android) and on Computerworld. An independent landing page will be created on Computerworld's site, and each episode will also be published as an article that briefly outlines the episode's most important points and gives the option of either listening to the podcast or downloading it.²

The podcasts are also marketed via banner ads in the Computerworld universe.

Besides Computerworld's distribution, after each episode you will also get sound files, texts and, if relevant, photos that the company can use on its own social media platforms and other marketing channels.

Price for 5 podcasts: DKK 250,000

Price for 10 podcasts: DKK 450,000

[>> Examples of podcasts](#)

Computerworld Events & Conferences

Meet the IT professionals on equal terms

Use Computerworld's events and conferences to get direct access to Denmark's IT professionals - either digitally or in person.

Computerworld Events are always up to date on things going on in the IT sector. Among other things, it is the overview and insights of Computerworld's journalists that are brought into play when Computerworld arranges conferences, events, exclusive roundtable discussions and, not least, half-day "How to?" seminars.

Partner up with Computerworld and become known for focused knowledge sharing

A themed conference (typically lasting a single day) offers the participants the chance to work with specific cases, to share knowledge and get good advice from experts.

As a partnering company, you will be part of defining the focus and content for the day. The conference starts and ends with a plenary session with Danish and international keynote speakers. Typically, the day includes different focus areas.

Price for partnership: (speaking time within an area) DKK 40,000

Price for a gold partnership: (speaking time during the plenary session) DKK 60,000

COMPUTERWORLD

A partner package for a physical event includes the following:

- 25 minutes of speaking time for an area or during the plenary session
- A list of participants with contact details and email permissions
- A stand in a networking area where there is also catering
- Logo plus a company mention and description on the registration site as well as a logo on the event schedule
- Follow-up evaluation via a report

Become a partner for Computerworld's digital events

A partnership package for a digital event includes the following:

- 20 minutes of speaking time
- A list of ALL participants, including email permissions and phone numbers.
- A list of participants for your specific presentation.
- Marketing via all of Computerworld's media.
- Logo and description on the event site.
- Teaser text on live transmission.
- A full-length recording of your presentation.
- 2-3 minute summary of your presentation.
- Evaluations from participants.

Price for partnership: (speaking time for an area) DKK 50,000

Price for a gold partnership: (speaking time during the plenary session) DKK 75,000

How to

How To? ... Become part of an established success

Computerworld's countrywide 'How To?' seminars are undeniably a success. Thousands of IT professionals have been inspired and gained new, important knowledge.

This is how the concept works:

- A morning seminar with approx. 4 speakers (partners) - each partner has 25 minutes of speaking time
- The seminar ends with a panel debate where the 4 partners also participate
- 50-80 participants The partners receive a list of the participants, including email permissions

Price for partnership: DKK 40,000

Typical participants:

- | | |
|-----------------------|--------------------------------|
| ▪ CIOs | ▪ System Managers |
| ▪ IT Managers | ▪ Sales and marketing managers |
| ▪ IT consultants | ▪ CEOs |
| ▪ IT project managers | ▪ Developers |
| ▪ Architects | ▪ Business developers |

Do you need your own How To? ...

A How To seminar includes:

- A morning seminar with 4 presentations and a potential panel debate
- Computerworld will advise on the programme structure
- The seminar is moderated by one of Computerworld's journalists
- 40-80 participants, recruited by Computerworld
- Computerworld will book and organise the venue
- Computerworld will handle all the practical issues on the day
- A list of participants with contact details and email permissions
- Statistical data on the participant's evaluations
- A list of participants who are open to additional dialogue

Price for ownership of an entire How To?: DKK 125,000

Digital HowTo

A Digital HowTo seminar, where you as an exclusive partner will have the opportunity to talk about how your tools and knowledge can help to address current issues related to the topic you want to participate in.

The target group is IT decision makers, ranging from major corporations to SMEs and the public sector.

Price for partnership: DKK 40,000

You can also own the entire event for DKK 125,000 (excluding VAT).

As a partner, you will get:

- 20 minutes of speaking and presentation time
- One of Computerworld's editors as a moderator
- A lead list with email permissions (GDPR compliant)
- 70-100 online participants
- Online questions and a chat with the participants
- Marketing via Computerworld's channels
- Evaluations from participants
- A recording of your presentation that you can use for other initiatives.

Rental of professional studio

We offer you the opportunity to rent Computerworld's studio in Herlev.

You can either stream directly from the studio or record video material in a professional setting in the studio.

The studio works ideally for both webinars, lead generations and for the production of on demand video material and other live recordings where a professional studio is desired.

There is focus on the good viewing experiences with perfect sound, light and image.

What is included?

- Two camera angles and individual sound for up to four people.
- Possibility to invite guests on remote.
- Professional studio manager who manages the technique and is in charge of your settlement.
- Speaker Lounge with coffee, water, etc. for guests.

Price:

Three hours: DKK 25,000

Six hours: DKK 35,000

Do you need event management? Computerworld is your professional partner

ComputerWorld has a lot of experience with event management for both digital and physical conferences, and we are happy to offer assistance with everything.

Use Computerworld as your subcontractor for an entire event - or for parts of an event.

Read more in Computerworld Events' presentations on event management here:

[Physical Event Management](#)

[Digital Event Management](#)

Core competences:

- Programme set up. We can provide professional input and journalistic sparring for the programme.
- Project management. Time is scarce, and many companies don't have the resources to organise everything on their own. Let Computerworld take care of it for you.
- Venue/booking of conference facilities ... and some extra hands to help out during the day / streaming platform.
- Participants - when a company wants other participants than those in their own database.

Close dialogue with top level CIOs

Computerworld Events has proven experience of arranging half-day conferences for smaller numbers of CIOs from companies with over 250 employees.

This concept is called a roundtable, which is the face-to-face world's equivalent of a white paper written by an independent third party.

Price for partnership: DKK 150,000

The concept works like this:

- Full service. Computerworld CIO will host a certain debate - as agreed upon with the partner.
- Computerworld CIO will invite the Chief Technology Officer/CIO, and assume the role of host and moderator for the event.
- These events normally include 8 to 12 CIOs from companies with more than 250 employees.

Digital Roundtable

A Digital Roundtable held by Computerworld, with a moderator via an interactive online video platform. The event involves an open group debate where you as a partner will have the opportunity to hear about the participants' challenges and thoughts, where you can also position yourselves as thought leaders in the CIO's minds.

Computerworld takes care of everything. All you have to do is define the topic in cooperation with us and be present as a host/case at the roundtable.

Computerworld writes the invitation and recruits participants.

Price: DKK 125,000

COMPUTERWORLD

Digital Roundtable - what is included?

Pre-production

- Co-branded event marketing - confirmation of date, schedule and topics
- Information on best practice for webcam/audio and practical remarks

Online event

- 2-hour digital event
- 10 minutes opening speech by the partner
- Open discussion chaired by Lars Jacobsen, Computerworld's Editor-in-chief and moderator.
- 8-12 participants.

After the event

- Contact information on all participants
- Final report, collecting participant feedback

Participant profile:

- IT decision-makers: CIOs, Chief Technology Officers and IT executives
- All sectors
- We prioritise the partner's wish for participant lists

Format/timeline for the actual event:

- Sign-in and name/company/position registration
- Discussion of topics in a 2-hour roundtable discussion with Computerworld's Editor-in-chief Lars Jacobsen as chair
- Live polls, content sharing - introductory and closing remarks from all participants

Computerworld job

Do you need to hire new IT staff?

Computerworld's IT job bank is Denmark's largest IT job site, backed by Denmark's largest IT news media, Computerworld. This means that you have a unique opportunity when recruiting your next IT employees. After all, you will be visible to people who are actively looking for jobs at it-jobbank.dk and those who might be tempted by the right offer if they see it on Computerworld. And they *can* actually be tempted with the right offer. The figures from our last major survey (with over 3,000 responses) show that a whole 85% of those asked were prepared to change jobs if the right offer came along.

Specifically, this means that you will potentially reach half a million users interested in the IT sector each month. This increases the odds of success when recruiting, no matter what types of IT positions you are looking to fill. There are no guarantees, but we will do **everything** we can to help you succeed.

Call us on +45 70 22 93 00 for more information.
