computerworld.dk

2 x Sticky-Skyscraper

The banners are displayed both on the front page of Computerworld.dk and on the article pages

Size: 160x600 pixel.

Price DKK 15,000 for one week and DKK 25,000 for 2 weeks.

The screenshot shows the Computerworld website layout. At the top, there is a banner for a Master's program in IT with the headline "Bliv den, der omsætter data til indsigt, handling og udvikling" and a "Ansøg nu" button. Below this is a navigation bar with the Computerworld logo and menu items: TEKNOLOGI, ERHVERV, IT-LEDELSE, SAMFUND. A secondary navigation bar lists "Aktuelt" topics like "Cyberangreb koster milliarder" and "Droneangreb på Danmark".

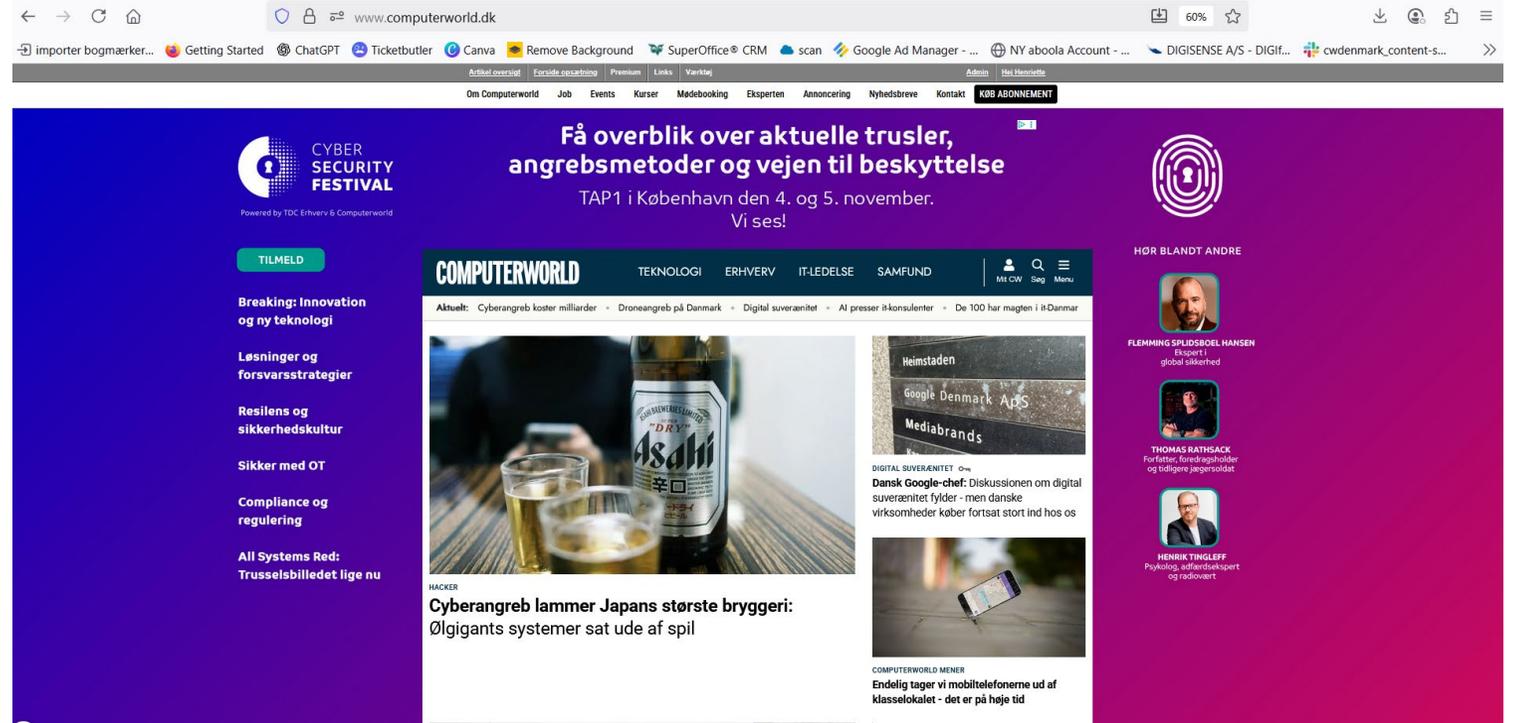

The main content area features a large article titled "Cyberangreb lammer Japans største bryggeri: Ølgigants systemer sat ude af spil" with a sub-header "HACKER". The article image shows Asahi beer bottles and glasses. To the right of the article is a "DIGITAL SUVERÆNITET" section with the headline "Dansk Google-chef: Diskussionen om digital suverænitæt fylder - men danske virksomheder køber fortsat stort ind hos os".

Two vertical "Sticky-Skyscraper" banners are highlighted with blue boxes and arrows. Both banners are for the "TRUSEC CYBERSECURITY SUMMIT 2025" held in Copenhagen online on October 9th. The banners contain the text: "Løft dine cybersikkerheds-kompetencer til næste niveau", a gold checkmark icon, "Alle deltagere på Cybersecurity Summit modtager et officielt Trusec-certifikat, der anerkendes til CPE-point under ISC'-rammen.", "50 % rabat for Computerworld-læsere", "Brug Koden: computerworld50", and a "Tilmeld dig" button.

ADVERTORIAL & NATIVE

Annonceindlæg fra Publicis Sapient

Carsten Grønning (IBM), Manish Kumar og Michelle Mills (Publicis Sapient) hos PS Danmark.

Order Management er hjertet i omnichannelstrategien

Publicis Sapient og IBM bygger globale, fleksible og skalerbare OMS-løsninger med fokus på kundeoplevelsen – og i Danmark er Pandora et skoleeksempel.

Af Publicis Sapient | Udgivet 27. Juni 2025

En moderne Order Management System-løsning bør betragtes som en strategisk investering i forretningstransformation med kundeoplevelsen i centrum snarere end som "blot" en teknisk opgradering.

"Før var fokus primært på "bare" at håndtere ordrer, men i dag er det kundens samlede oplevelse, der definerer OMS-kravene," fortæller Manish Kumar, Enterprise Application Architect hos Publicis Sapient.

Virksomheden har til huse i lyse lokaler i en tidligere Lauritz Knudsen-fabrik i København. Oprindeligt blev fabrikken bygget for at sætte strøm til danskernes hverdag, men i dag er missionen at facilitere virksomheders digitale omstilling, hvor bl.a. Agentie AI og DevSecOps forandrer moderne ordrehåndtering.

Fokus på kundeoplevelse og differentiering

Her er Carsten Grønning, Client Leader hos IBM med fokus på OMS-plattformen IBM Sterling en hyppig gæst. For OMS er en helt integreret del af den digitale transformation.

"OMS er i dag noget, som hele organisationen har aktier i, og som bør være tæt integreret med både kundeoplevelse og forretningsudvikling. Det skal ikke blot fungere som en ERP-funktion i baggrunden", fortæller Carsten Grønning.

"Ordreopfyldelsen er en central del af en god kundeoplevelse. Man er nødt til at have overblik over præcis, hvad der er på lager, hvor de enkelte varer befinder sig, og hvad der er på vej til kunden. Transparens i realtid er en forventning fra kunderne," supplerer Michelle Mills, Account Director i Publicis Sapient.

"Mange B2B-virksomheder står i øvrigt over for lignende krav: Realtidsopdateringer, gennemsigtighed, skalerbarhed og individuelle kundepræferencer. Her kan en fleksibel OMS-løsning skabe stor værdi," tilføjer Manish Kumar.

For at leve op til de forventninger, anbefaler han at fokusere på fleksibilitet, når man vælger OMS-

Example of advertorial

Reach out to Computerworld's readers via Native

An advertorial is an advertisement that looks like an article. That's actually how short it can be said.

It will usually have a far greater effect than display banners, because consumers today have become accustomed to being bombarded with advertisements every day.

When they instead read about the product in an article, they will remember the product for a longer time. The look and feel of advertorials are like other editorial content, and the journalistic approach means that the audience is met with their guard down because it is not traditional marketing.

Native = Maximum visibility

The concept works like this:

- A targeted and professional article is written focusing on the company's history, product or message. The article can also be used for other marketing initiatives.
- The company's Native article is exposed to approximately 300,000 monthly users on Computerworld.dk.
- The native banners get up to 100,000 views
- The company gets full access to a number of exposures and views of the company's content on Computerworld.dk.
- The opportunity to generate leads by including links to whitepapers and case studies behind a registration wall.

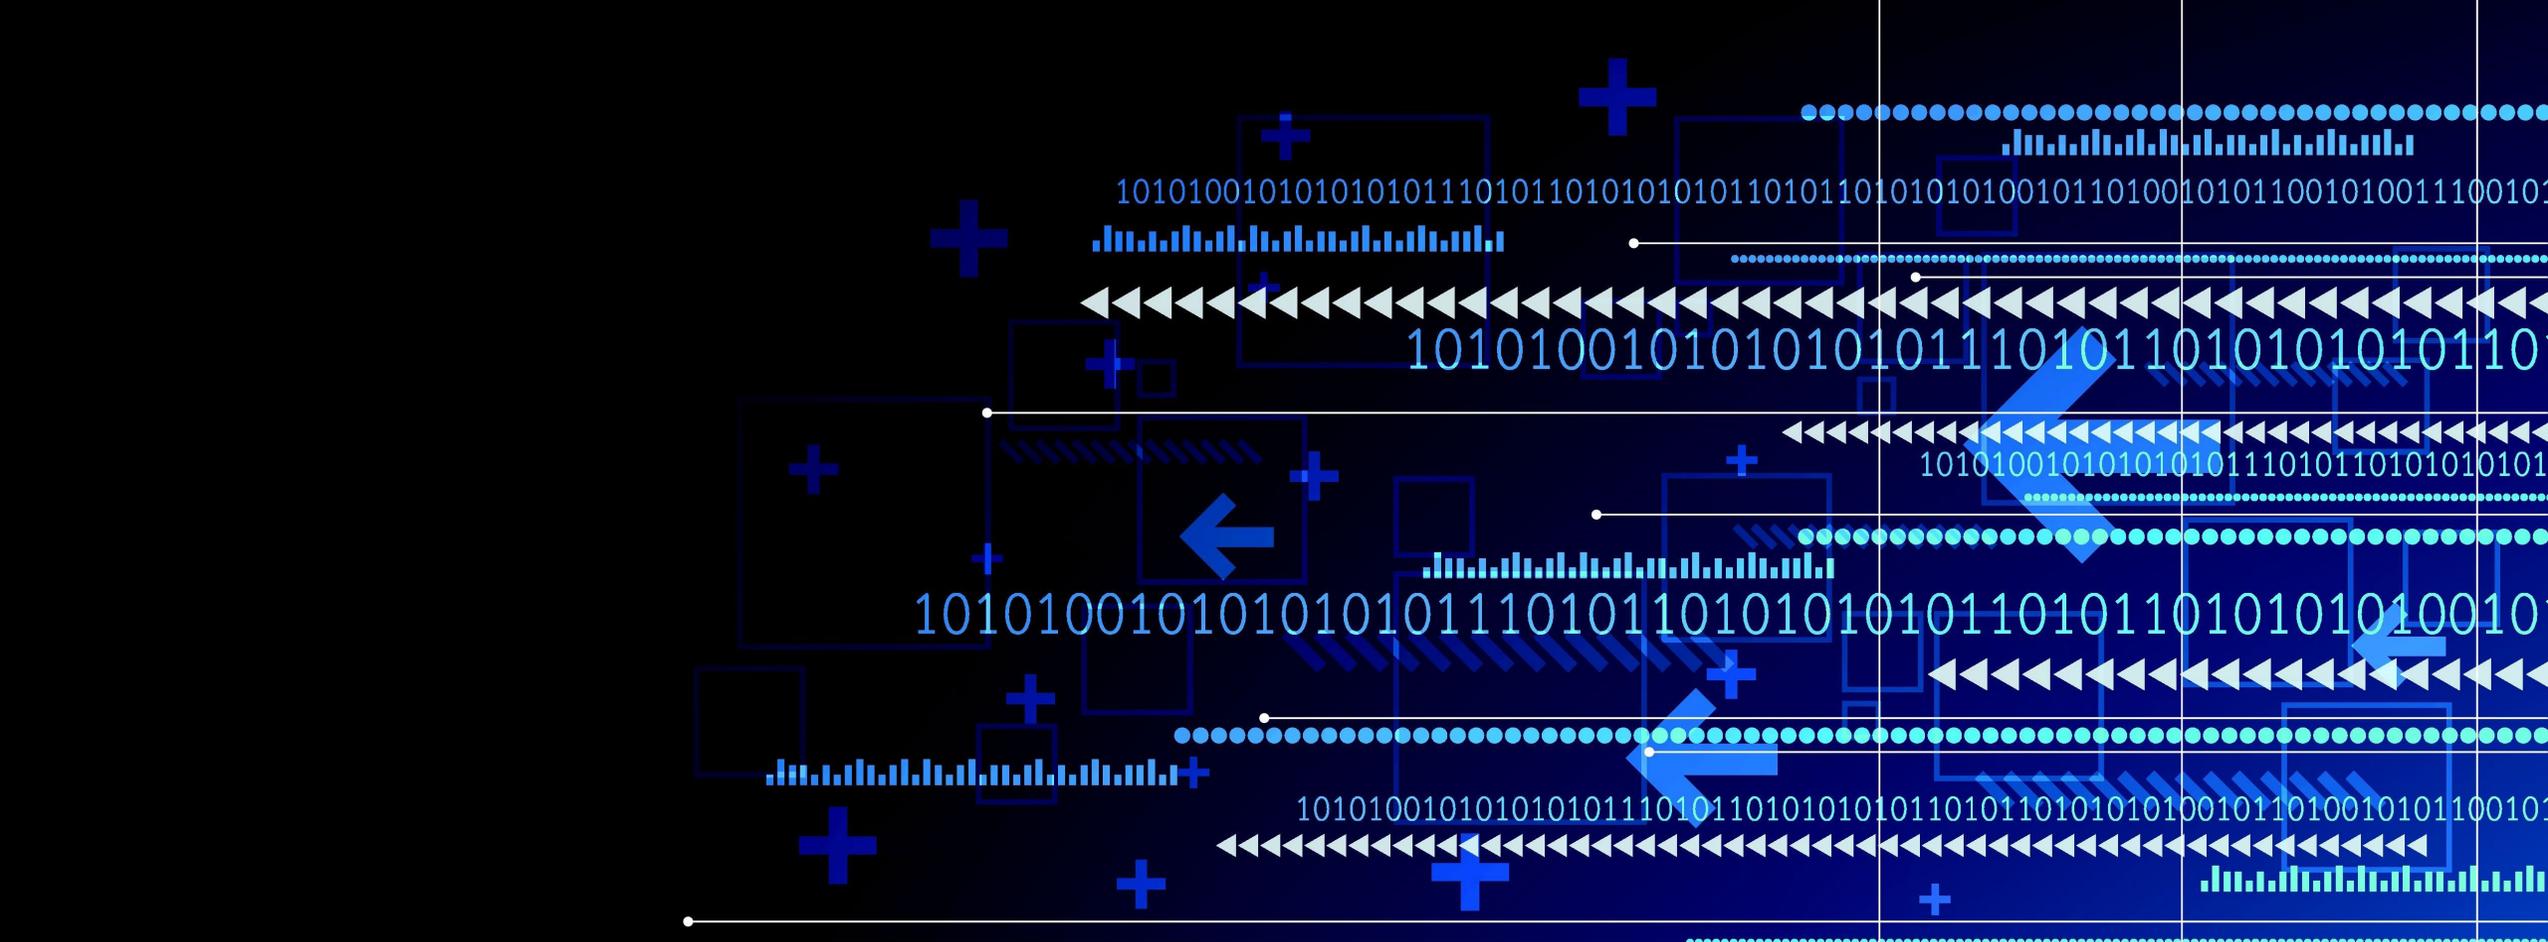

Computerworld writes, interviews, and publishes: Price 30,000 DKK.

You write, and we publish: Price 20,000 DKK.

All prices are excluding VAT.

The screenshot shows the Computerworld website interface. At the top, there is a navigation bar with the logo and categories: TEKNOLOGI, ERHVERV, IT-LEDELSE, SAMFUND. Below the navigation bar, there is a news ticker with headlines like 'Aktuelt: Han vinder DM i Programmering', 'Farvel til Windows 10', 'Cyberangreb der koster milliarder', 'Droneangreb på Danmark', and 'Digital suveræniteten'. The main content area features a large native banner for Discord with the text 'HACKERE Populær beskedtjeneste hacket: Betalingsoplysninger og persondata er stjålet'. Below this banner, there are two smaller article snippets: 'PARTNERSTRATEGI To af tre it-professionelle i Danmark anvender en Lenovo-pc – sådan har topchef Peter Juul Jørgensen gjort det kinesiske mærke til danskernes foretrukne' and 'OFFENTLIG IT-ARKITEKTUR Statens omkostninger til nyt NemKonto-system fra Netcompany står til at stige markant'. On the right side of the page, there is a sidebar with a featured article titled 'ET UTM VIKTSOMHED rustet mod fremtidens cybertrusler?' and logos for FORTINET and NORLYS erhverv. A blue box highlights the 'Native banner' area.

Native banner

SERVICE MAIL & WHITE PAPER

NETVÆRK, SIKKERHED OG DATACENTER

Vil du opleve det bedste fra Cisco Live i Amsterdam på en halv arbejdsdag?

Vær med, når Atea inviterer til Best of Cisco Live i enten Aarhus eller Ballerup, hvor Ateas egne top-certificerede specialister i samarbejde med Cisco færdige eksperter dykker ned i teknologier og trends inden for netværk, sikkerhed og datacenter fra Cisco Live i Amsterdam. Vi sikrer du får de seneste nyheder igennem forskellige keynotes og live-interaktioner, hvor du samtidig kan skræddersy dit helt eget program. På dagen vil vi præsentere dig for tre spændende keynotes fra Cisco:

- Director of Solutions Engineering - Henrik Stær
- Cybersecurity Lead Denmark - Kenneth Schwartz
- Datacenter Lead Denmark - Hans Lund Donnerberg

Hvad siger tidligere deltagere om Cisco Live i Amsterdam?

Vi har taget det bedste med hjem til

Collaboration seminar

"Det Datadrevne Kontaktcenter"

Hej [NAME],

Vi inviterer dig til et ekstraordinært seminar om "Det Datadrevne Kontaktcenter".

Verint demonstrerer effektive metoder til at sikre overholdelse af mundtlige aftaler og GDPR, samtidig med at de identificerer tendenser i samtaler gennem brugen af chatgpt og voice analytics. Både disse præsenterer avancerede teknologier som omnichannel, kunstig intelligens og virtuelle agenter, der alle arbejder sammen for at optimere kontaktskærm. Calabrio tilbyder et globalt perspektiv på, hvordan Calabrio ONE Workforce Performance-pakken styrker både agenter og brugere.

Dagen er skræddersyet til at udforske nøgleelementer inden for datadrevne løsninger og kunstig intelligens, med fokus på to gæstetalere - Klaus Bang, Senior Workforce Manager ved Alm. Brand, og Nils Træholt, Adm. Direktør for Med24.dk.

[Se hele agendens og tilmeld dig her](#)

Gæstetalere:

Klaus Bang
Senior Workforce Manager ved Alm. Brand

Få en unik case study præsenteret af Klaus Bang, der har over 15 års erfaring inden for workforce management i kontaktskærm. Med en imponerende baggrund, der inkluderer 13 år hos Danske Bank og senere roller hos Coolan Forsikring og Alm Brand Group, bringer Klaus Bang en unik indsigt og praktisk viden fra både ind- og udland. Han vil dele praktiske strategier om driftsoptimering og vigtigheden af Workforce Management, herunder tilhørende KPI'er og planlægning på kort og lang sigt.

Nils Træholt
Direktør og medstifter af Med24.dk

Oplev Nils Træholt, Adm. Direktør for Med24.dk, som vil dele konkrete eksempler på vellykket AI-implementering. Fokus vil være på, hvordan ChatGPT har styrket Med24's online strategi, og hvordan teknologien har forbedret kundeinteraktion og supportprocesser. Dette seminar giver dig mulighed for at høre fra nøgleeksperter inden for datadrevne kontaktskærm, og du kan forvente praktiske råd og værdifulde indsigter.

Genuinely targeted marketing

Computerworld brings our extensive permission database into play and provides a unique opportunity to send an exclusive, targeted message to an entirely specific group of IT professionals.

Service mail can be used to invite guests to your own event, for a product launch, an item of news, branding etc. – wherever you need to reach your market segment in a targeted way.

You determine the content we deliver to your market segment.

Prices:

- 1.000 permission kr. 15.000
- 3.000 permission kr. 25.000
- Yderligere permissions kr. 4 per stk.

1,000 permissions is the minimum.

Material:

The EDM content can be delivered either as HTML or as a graphic + text.

If we need to set up an HTML, there will be an additional charge of DKK 2,500.

Produce a whitepaper and get the best sales leads

IT professionals often use white papers to learn about current technologies and solutions before deciding to invest.

The concept works like this:

- The company books a certain number of leads. The price depends on who the company accepts as a lead
- The white paper is uploaded to Computerworld.dk/whitepaper
- The white paper is marketed in Computerworld's media universe
- Leads will be forwarded on an ongoing basis.
- Data on each lead includes name, title, name of company, address, email, phone number, number of employees, data and time of download.

Price is DKK 5,000 for start-up + DKK 1,000 per basis lead (minimum of 20 leads).

Computerworld is happy to accept a list of companies that you want leads from - and, if relevant, a list of companies that you are not interested in.

The screenshot shows the Computerworld Whitepaper website. At the top, there is a navigation bar with links for 'Whitepaper', 'STRATEGI, PLANER & LEDELSE', 'FORRETNINGS SOFTWARE', 'SERVER & STORAGE', 'SIKKERHED', 'TELE & MOBIL', 'KONTAKT', and 'LOG UD'. The main heading is 'Computerworld Whitepaper'. Below this, there is a search bar with a text input field and a 'SØG' button. A sidebar on the right contains a search bar and a dropdown menu for 'Vælg evt. kategori'. The main content area is divided into two sections: '9 KATEGORIER | 734 WHITEPAPERS' and 'SENESTE WHITEPAPERS'. The '9 KATEGORIER' section is a grid of nine categories, each with an icon, a title, and a brief description. The 'SENESTE WHITEPAPERS' section is a list of six whitepapers, each with a thumbnail image, a title, a short description, and a 'Læs mere' link.

Whitepap

Professional Computerworld journalism generates high-quality leads

White papers have a documented effect as generators of sales. Typically, you will get the best results if the white paper is structured and written in a journalistic style - and in Danish. Computerworld can offer a complete production of a high-quality white paper and guarantee that it will result in 25 sales leads.

The concept works like this:

- A 4-page white paper is written by a journalist associated with Computerworld, and Computerworld handles the layout.
- The subject and, if relevant, the script is defined by the sponsor.
- Your white paper is uploaded to Computerworld's white paper library and marketed on computerworld.dk, in newsletters and via email Direct Marketing.
- Computerworld **guarantees** 25 leads within an agreed upon time period.
- A lead consists of a professional (B2B) person, who has expressed a need for this product area and which Computerworld has the following data on: Name, title, name of company, address, email, phone number, sector and number of employees. There will also be a date and time for when the white paper was downloaded.

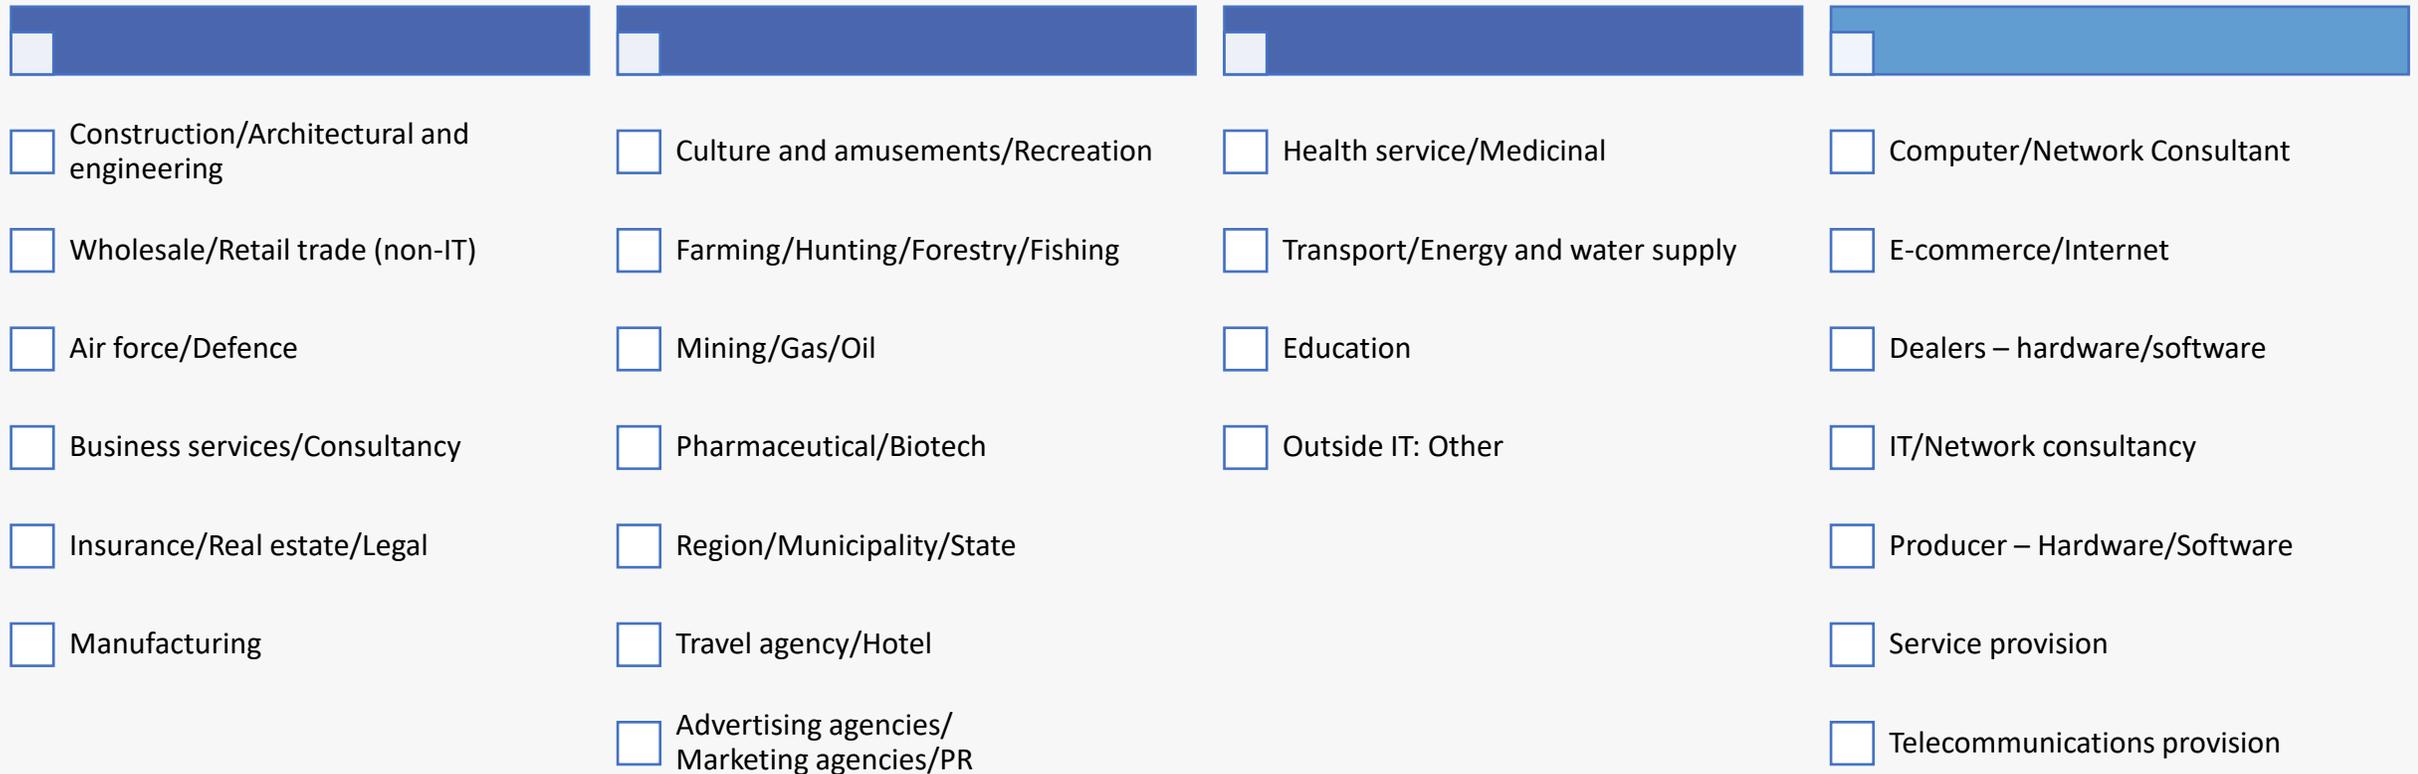

Market segments for service mails and white papers

PODCAST

Podcast for IT professionals

Background

A podcast is for those of you who want to work together with Computerworld to create a podcast about companies' digital challenges, security challenges or other challenges that IT executives are interested in solving.

The podcasts will be hosted by Computerworld's Editor in Chief, Lars Jacobsen, and one of you.

Based on a talk with a guest, each podcast episode will focus on the guest's history, challenges and potential solutions for the guest's specific business sector.

The structure of the podcast:

Each podcast begins with an introduction of the guest, hosts and the subject matter. This is followed by a 20-30 second voiceover/intro. This will include a mention that the podcast is a collaboration between Computerworld and you.

The hosts will then discuss the podcast subject with the guest.

Podcast

Each guest is chosen because they represent a topic that you as a partner want to highlight.

You can order 5 to 10 podcasts.

Computerworld will distribute each of the 10 episodes via RSS (Android), iTunes (iOS) and on Computerworld.dk in the form of an article that sums up the episode.

Computerworld will use either our Editor in Chief, Lars Jacobsen, or another editor to host the podcast and act as an editorial sparring partner.

You and Computerworld will work together to structure each episode, though it is expected that you will also use your network and customers to help us find the best people to interview. Computerworld will, however, retain editorial control.

Any travel expenses in connection with the recording of the podcasts will be paid for by you.

Podcast episodes are published on iTunes, RSS (for Android) and on Computerworld. An independent landing page will be created on Computerworld's site, and each episode will also be published as an article that briefly outlines the episode's most important points and gives the option of either listening to the podcast or downloading it.

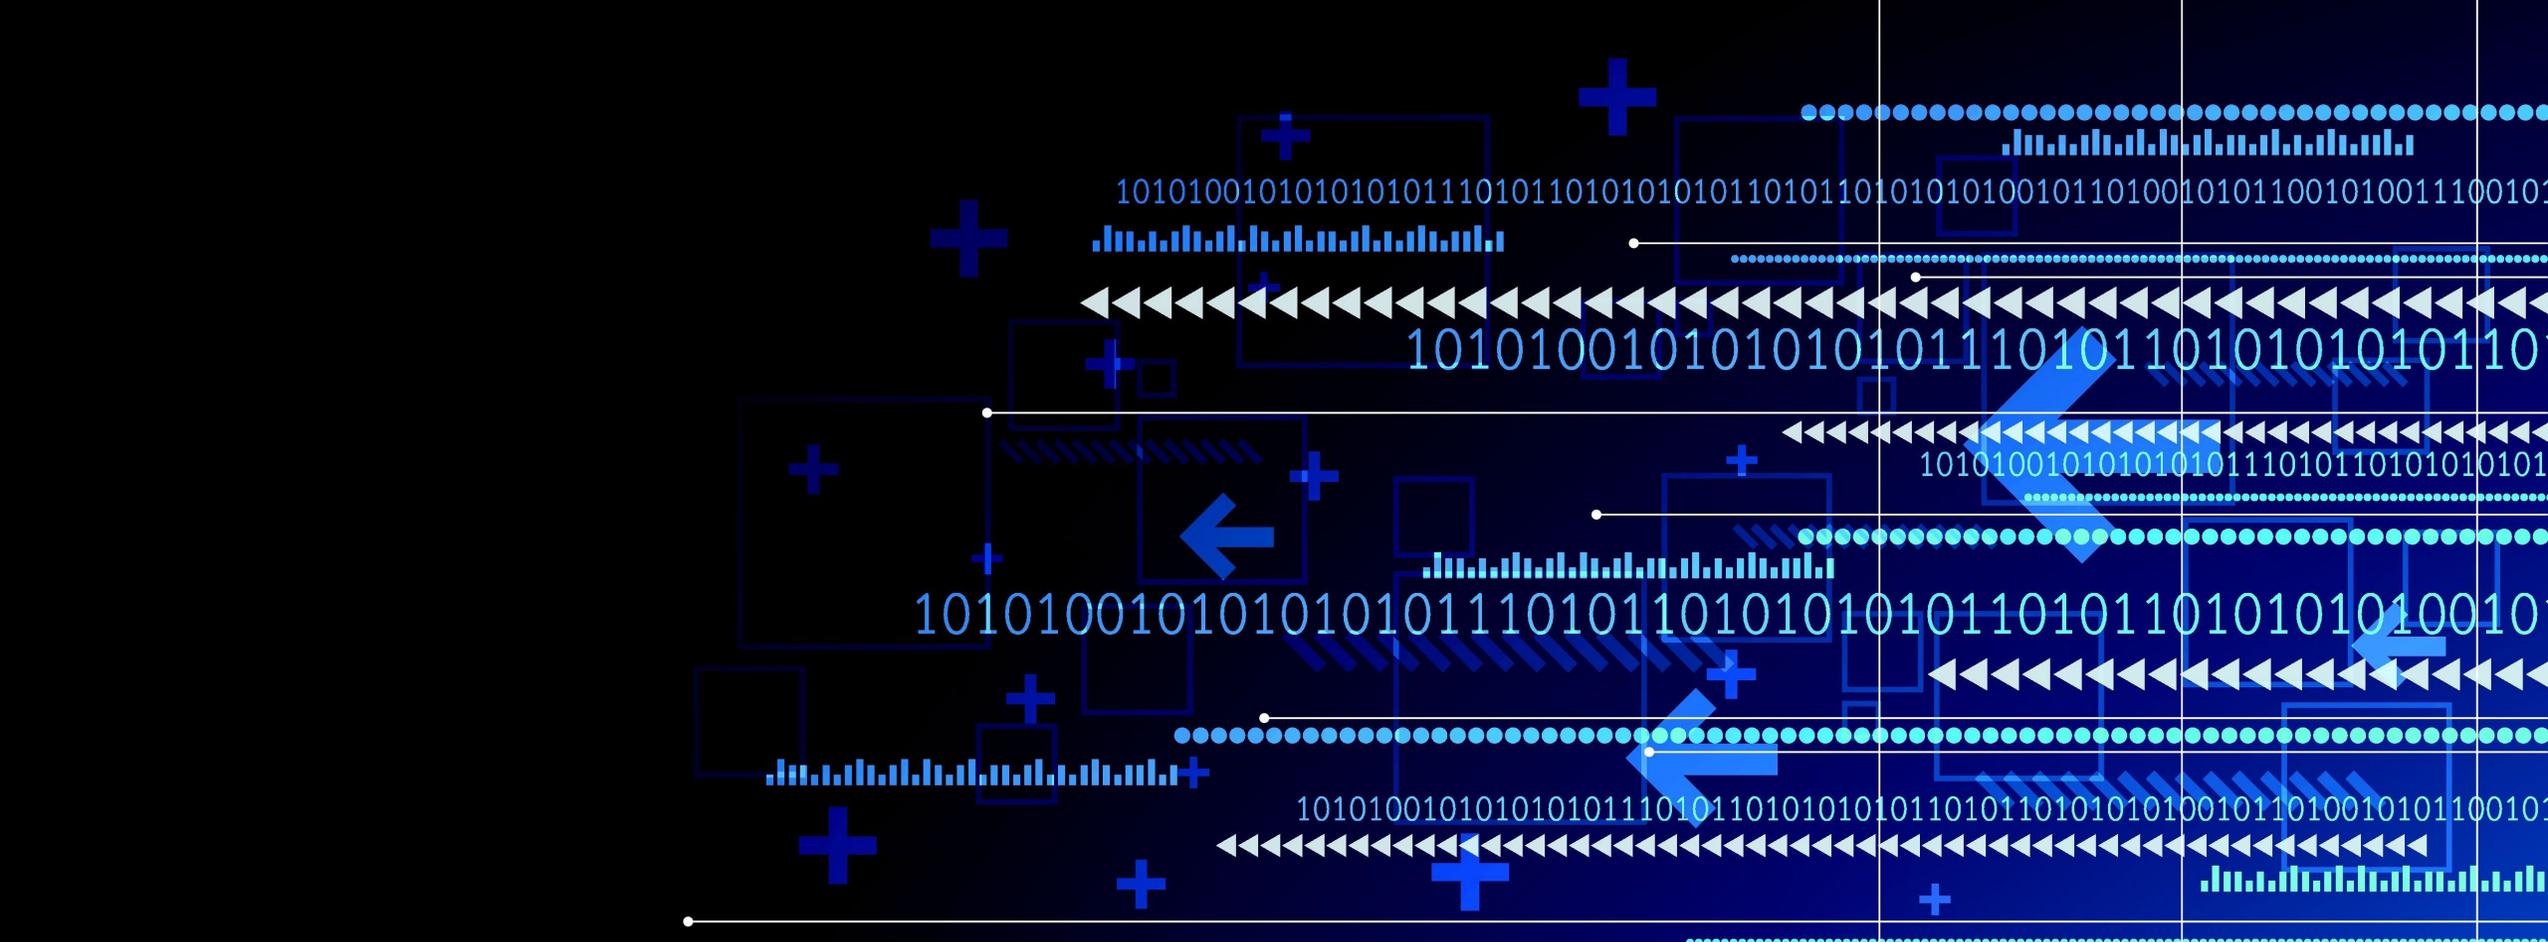

The podcasts are also marketed via banner ads in the Computerworld universe.

Besides Computerworld's distribution, after each episode you will also get sound files, texts and, if relevant, photos that the company can use on its own social media platforms and other marketing channels.

Price for 5 podcasts: DKK 250,000

Price for 10 podcasts: DKK 450,000

COMPUERWORLD TECHTALKS

Background

Now you have the opportunity to become partners in a unique podcast universe with a full focus on IT. Within the **AI & Cyber security** topics, we examine current and relevant issues, discussing the advantages and disadvantages with you as Denmark's leading experts.

In an informal conversation facilitated by our regular host, Søren Vejby, you have the chance to share your specific knowledge on the given topics alongside a non-commercial participant—this could be, for example, a researcher or a case from a company.

Drawing on Computerworld's extensive database combined with the perpetual accessibility of streaming services, you have a unique opportunity to reach a broader audience than ever before on platforms tailored to listeners' and consumers' needs.

Be the leading experts who are visible, accessible, and current for the listeners, whenever and wherever they have time to tune in!

Topics / episodes

AI topics

Episode 1: Distinguishing Between the Ethical and the Effective

Episode 2: What do we need ChatGPT for?

Episode 3: Robot Recruitment

Episode 4: A tool to support humans or to replace humans?

Episode 5: Where should it all not end up?

Cyber Security - topics

Episode 1: The silent killers

Episode 2: Before, during, and after

Episode 3: AI as a safety net

Episode 4: The best defense is an offense

Episode 5: The future of security

Price

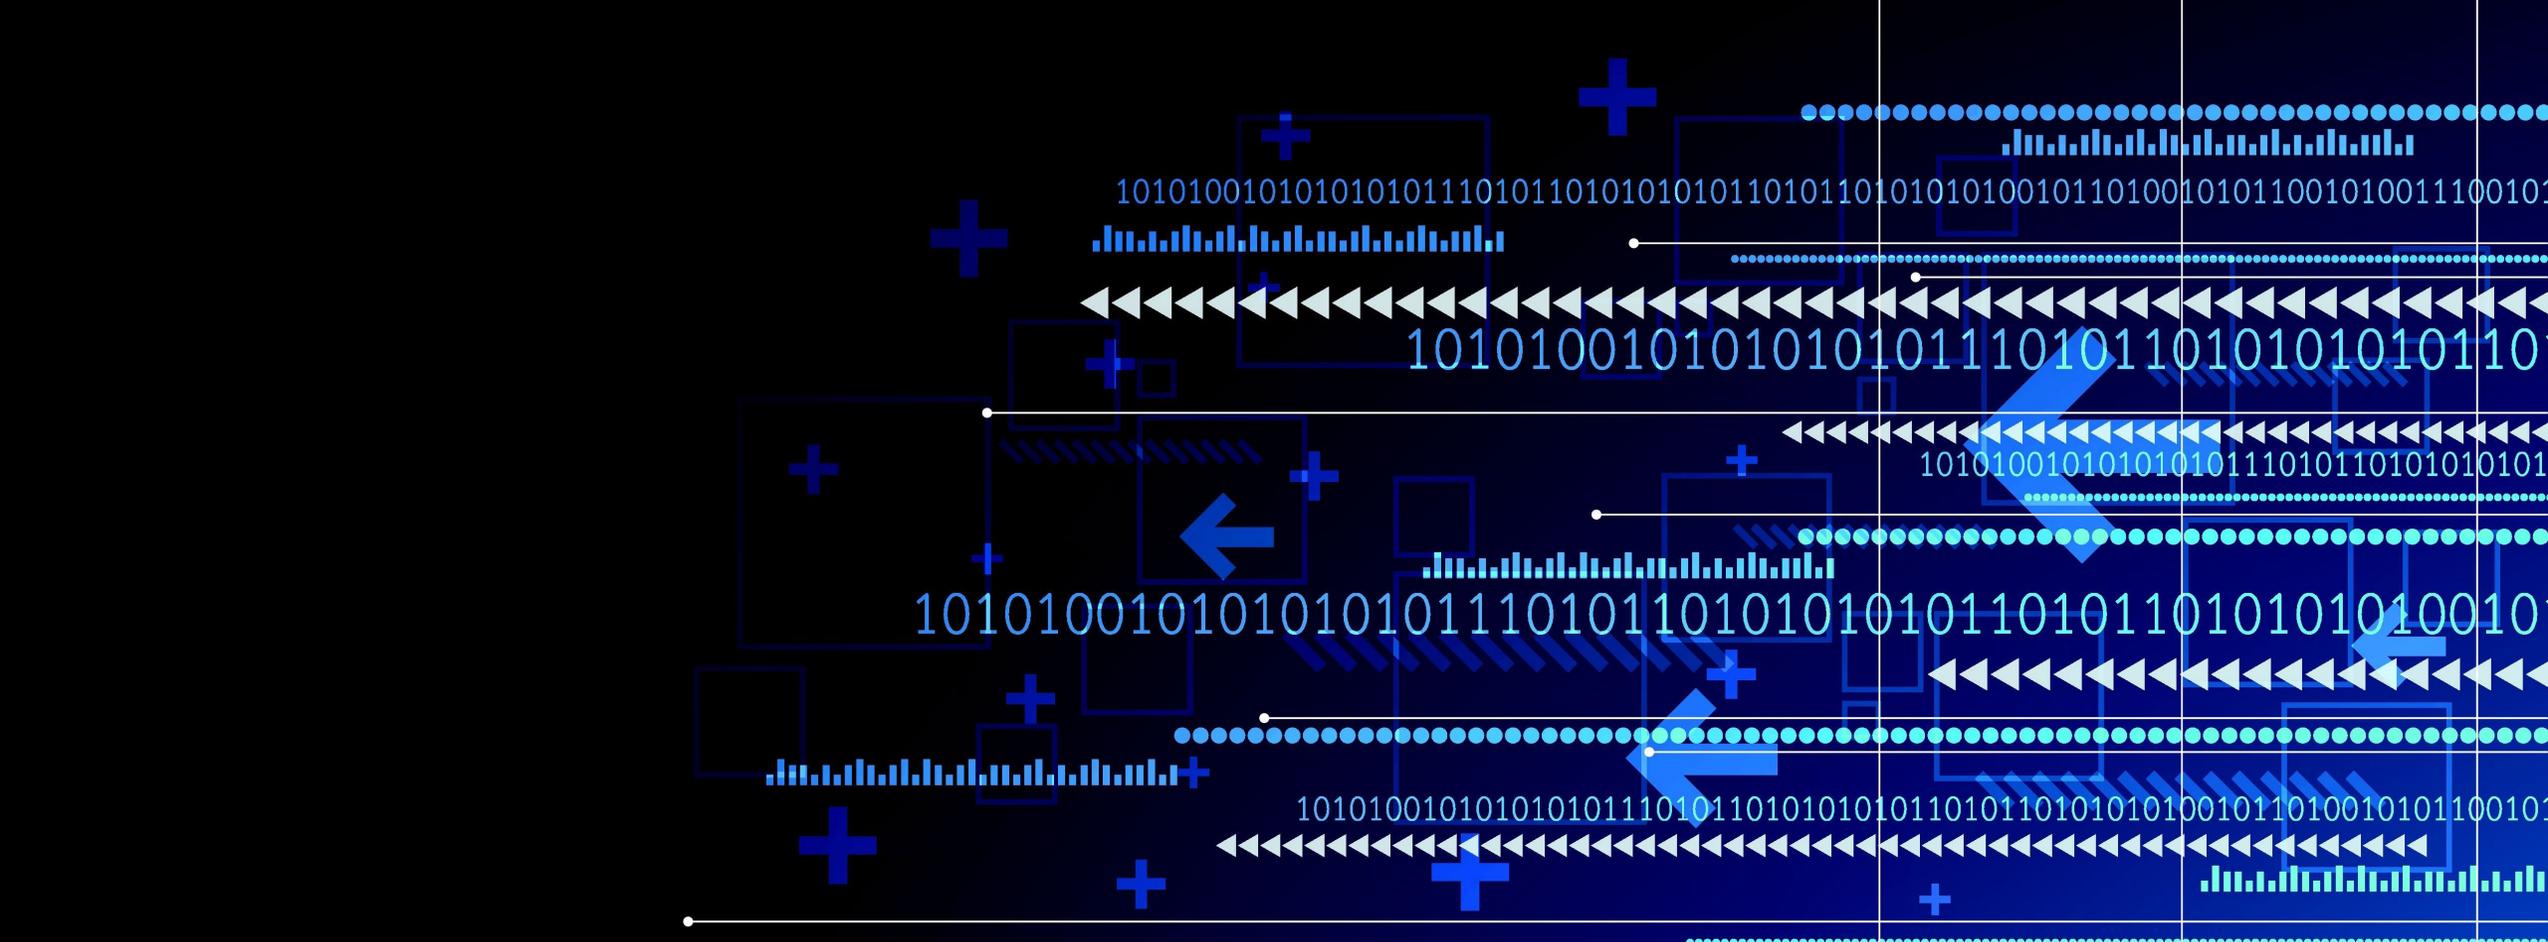

The price per podcast is DKK 50,000, or 3 pieces for DKK 130,000 excluding VAT.

The price includes:

- Coordination between journalist, expert, and your team
- Recording in our studio in Bredgade
- Video clips from the recording
- The fully edited podcast uploaded to key platforms, and you receive the link

There is also an opportunity for additional marketing of the podcast, such as banners on cw.dk or an advertorial written by a Computerworld journalist based on the podcast.

An additional cost for an online campaign (150,000 impressions) or advertorial written by Computerworld is DKK 20,000 excluding VAT.

EVENTS & CONFERENCES

Meet the IT professionals on equal terms

Use Computerworld's events and conferences to get direct access to Denmark's IT professionals - either digitally or in person.

Computerworld Events are always up to date on things going on in the IT sector. Among other things, it is the overview and insights of Computerworld's journalists that are brought into play when Computerworld arranges conferences, events, exclusive roundtable discussions and, not least, half-day seminars.

Become a partner at Computerworld's physical themed conferences

Become known for focused knowledge sharing

A themed conference (typically lasting a single day) offers the participants the chance to work with specific cases, to share knowledge and get good advice from experts.

As a partner, the company helps to define today's focus and content. The conference starts and ends in plenary with Danish and international keynotes. Often there are several focused tracks during the day.

Contact us for price.

A partner package for a physical event includes the following:

- 25 minutes of speaking time for an area or during the plenary session
- A list of participants with contact details and email permissions
- Meeting point in a networking area where there is also catering
- Logo plus a company mention and description on the registration site as well as a logo on the event schedule
- Follow-up evaluation via a report

Become a partner for Computerworld's digital events

A partnership package for a digital event includes the following:

- 20 minutes of speaking time.
- A list of ALL participants, including email permissions and phone numbers.
- Logo and description on the event site.
- A full-length recording of your presentation.
- Evaluations from participants.

COMPUTERWORLD

Do you need event management?

Computerworld is your professional partner

ComputerWorld has a lot of experience with event management for both digital and physical conferences, and we are happy to offer assistance with everything.

Use Computerworld as your subcontractor for an entire event - or for parts of an event.

Read more in Computerworld Events' presentations on event management here:

[Physical Event Management](#)

[Digital Event Management](#)

Core competences:

- **Programme set up.** We can provide professional input and journalistic sparring for the programme.
- **Project management.** Time is scarce, and many companies don't have the resources to organise everything on their own. Let Computerworld take care of it for you.
- **Venue/booking of conference facilities ...** and some extra hands to help out during the day / streaming platform.
- **Participants** - when a company wants other participants than those in their own database.

Do you want to have your own physical event?

Become known for focused knowledge sharing

A themed conference (typically lasting a single day) offers the participants the chance to work with specific cases, to share knowledge and get good advice from experts.

As a partnering company, you will be part of defining the focus and content for the day.

A standard event contains:

- A morning seminar with 4 presentations and a potential panel debate
- Computerworld will advise on the programme structure
- The seminar is moderated by one of Computerworld's journalists
- 40-80 participants, recruited by Computerworld
- Computerworld will book and organise the venue
- Computerworld will handle all the practical issues on the day
- A list of participants with contact details and email permissions
- Statistical data on the participant's evaluations
- A list of participants who are open to additional dialogue

Contact Computerworld
for price.

Do you want to have your own digital event?

At your own digital event, you as an exclusive partner have the opportunity to talk about how your tools and knowledge can help to address current issues related to the topic you want to participate in.

The target group is IT decision makers, ranging from major corporations to SMEs and the public sector.

As a partner, you will get:

- One of Computerworld's editors as a moderator
- A lead list with email permissions (GDPR compliant)
- 70-100 online participants
- Online questions and a chat with the participants
- Marketing via Computerworld's channels
- Evaluations from participants
- A recording of your presentation that you can use for other initiatives

Typical program for Digital Event Management

Time	Presentation
09.00-09.05	Moderator's opening remarks
09.05-09.30	Keynote
09.30-09.35	Q&A for keynote
09.35-09.55	Presentation
09.55-10.00	Q&A for presentation
10.00-10.20	Presentation
10.20-10.25	Q&A for presentation
10.25-10.35	Break
10.35-10.55	Presentation
10.55-11.00	Q&A for presentation
11.00	Closing remarks

Rental of professional studio

- We offer you the opportunity to rent Computerworld's studio in Herlev.
- You can either stream directly from the studio or record video material in a professional setting in the studio.
- The studio works ideally for both webinars, lead generations and for the production of on demand video material and other live recordings where a professional studio is desired.
- There is focus on the good viewing experiences with perfect sound, light and image.

What is included?

Two camera angles and individual sound for up to four people.

Possibility to invite guests on remote.

Professional studio manager who manages the technique and is in charge of your settlement.

Speaker Lounge with coffee, water, etc. for guests.

Price:

Three hours: DKK 25,000

Six hours: DKK 35,000

Close dialogue with top level CIOs

Computerworld Events has proven experience of arranging half-day conferences for smaller numbers of CIOs from companies with over 250 employees.

This concept is called a roundtable, which is the face-to-face world's equivalent of a white paper written by an independent third party.

Here you get a unique, honest and unfiltered insight into the business and technological challenges and choices that CIOs face.

The Round table is moderated by Computerworld's experienced editors, who will work to involve you equally in the debate.

Price for partnership: DKK 160,000

The concept works like this:

- Full service. Computerworld CIO will host a certain debate - as agreed upon with the partner.
- Computerworld CIO will invite the Chief Technology Officer/CIO, and assume the role of host and moderator for the event.
- These events normally include 8 to 12 CIOs from companies with more than 250 employees.

DINNER ROUND TABLE

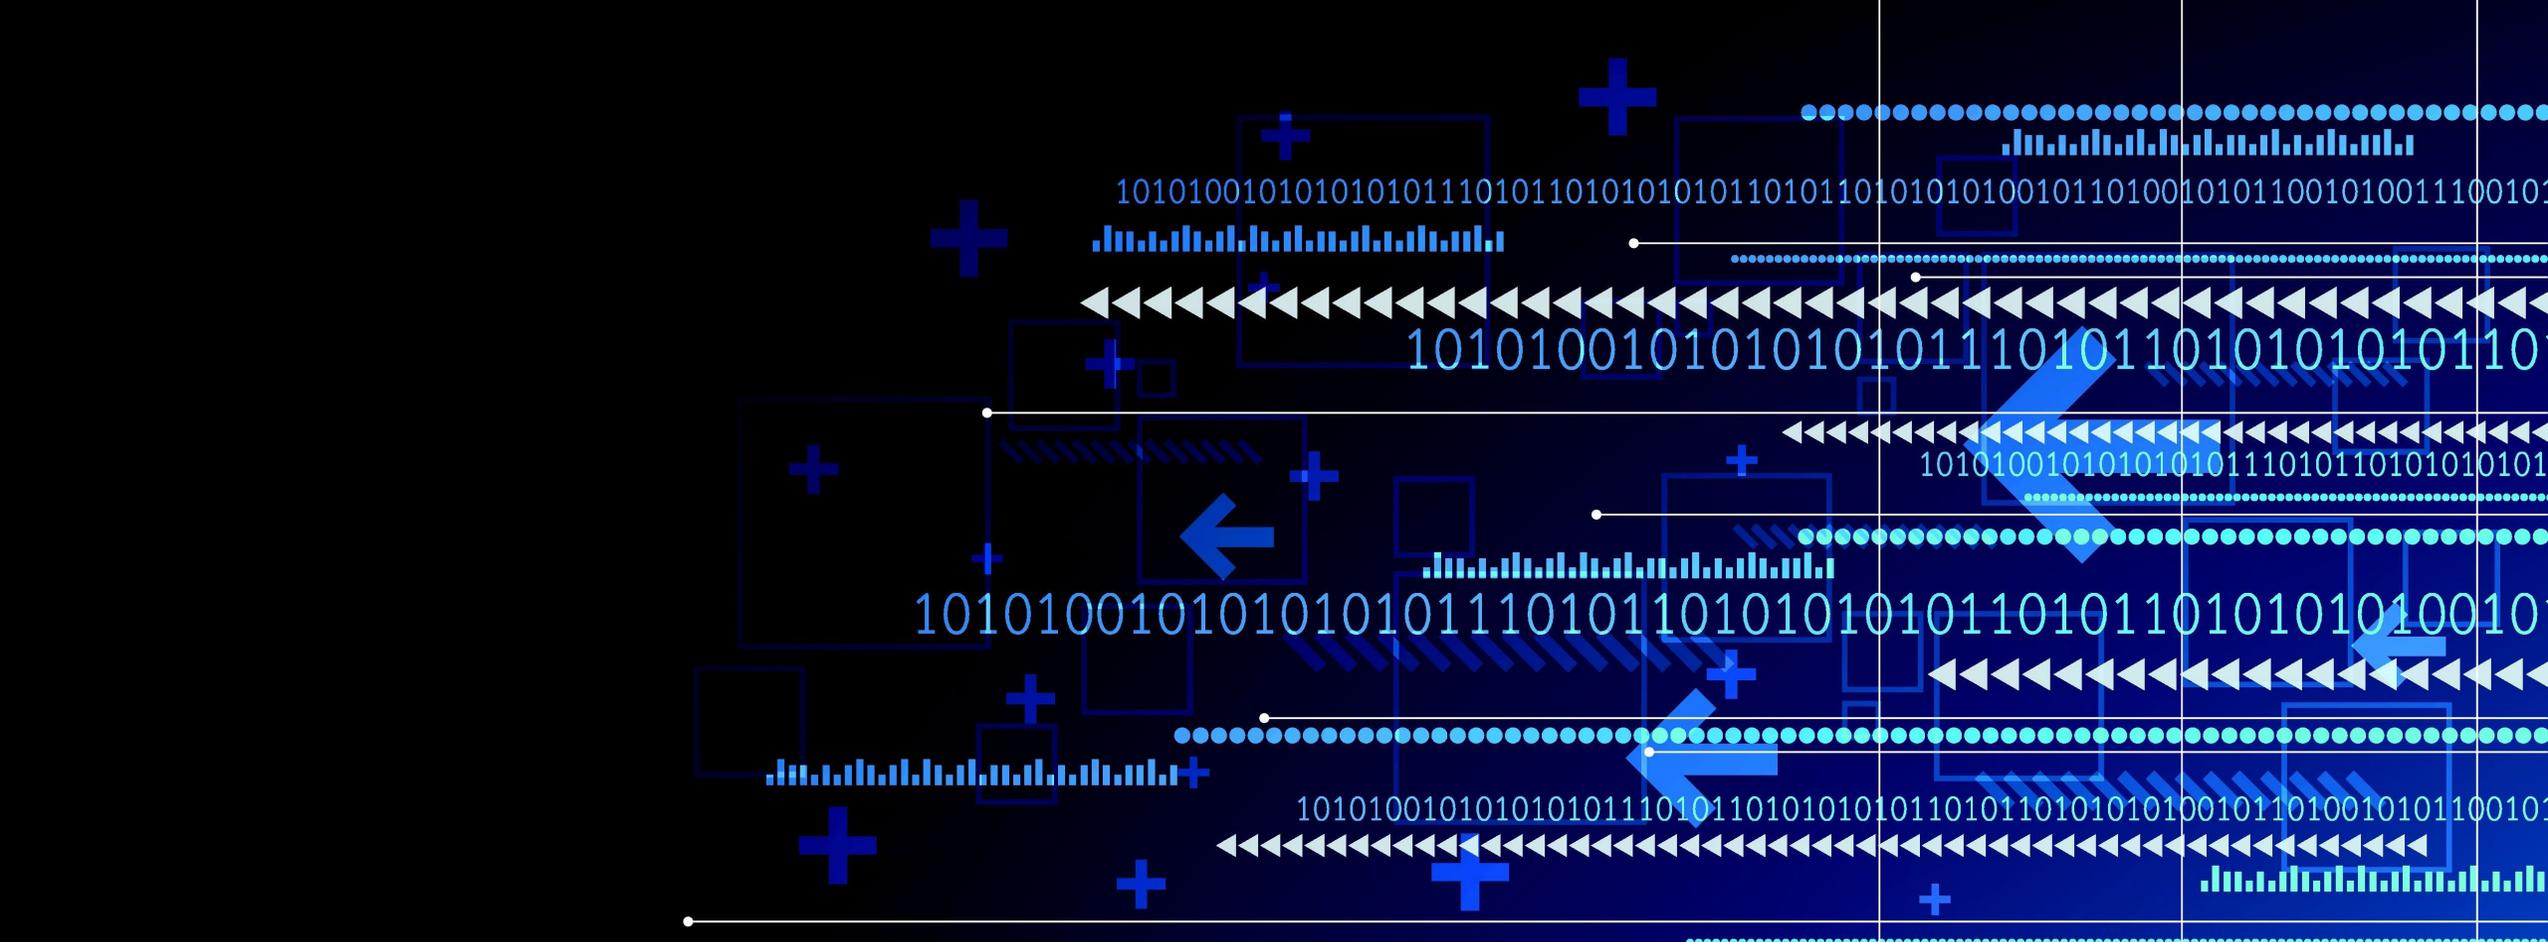

- Computerworld Executive Dinner Roundtable is an event for a very selected audience, which can include CIOs, CISOs, CTOs, and other decision-makers.
- At an exclusive roundtable, 10-14 top decision-makers discuss a current and predefined topic.
- The topic is determined by you as the partner, and you also join the participant at the table.
- Computerworld Executive Dinner Roundtables are moderated by one of Computerworlds experienced editors.
- The event is held at the Michelin restaurant Formel B in Copenhagen, where a delicious 4-course menu with wines is served.

Price DKK 175,000 excluding VAT

Profit: Computerworld Dinner Roundtables gives you...

- It provides high credibility, quality, and an open discussion at a level where the participants' defenses are down.
- Networking.
- Close dialogue with C level and easy to arrange subsequent meetings.
- The list of participants with email and mobile numbers.

COMPUTERWORLD JOB

Do you need to hire new IT staff?

Computerworld's IT job bank is Denmark's largest IT job site, backed by Denmark's largest IT news media, Computerworld. This means that you have a unique opportunity when recruiting your next IT employees. After all, you will be visible to people who are actively looking for jobs at it-jobbank.dk and those who might be tempted by the right offer if they see it on Computerworld. And they can actually be tempted with the right offer. The figures from our last major survey (with over 3,000 responses) show that a whole 85% of those asked were prepared to change jobs if the right offer came along.

Specifically, this means that you will potentially reach half a million users interested in the IT sector each month. This increases the odds of success when recruiting, no matter what types of IT positions you are looking to fill. There are no guarantees, but we will do everything we can to help you succeed.

Call us on +45 70 22 93 00 for more information.
